

**Attachment 4**  
**Proposed PM2.5 Sampling Frequency**  
**for Monitoring Sites to be Funded in 1998 in California**

Site Location (by MPA)		Operating Agency	Sampling Frequency	
			Required	Proposed
Bay Area AQMD				
	Concord-2975 Treat Blvd	BA	Everyday	From site commencement to March 31, 1999, the District proposes 1 in 3 day sampling at all PM2.5 monitoring sites. After that, the District will sample according to the requirements (everyday at 4 sites and 1 in 3 day at 5 sites) during the period of expected high PM2.5 concentrations (October 1 through March 31). During the period of expected low PM2.5 concentration (April 1through September 31), the District will sample on a 1 in 6 day schedule at all sites.
